

# graphishstudio

*a unique design studio*

## **Big agency results without the big agency attitude**

At Graphish Studio, we've stayed small so our clients get it all. All the attention, creativity and commitment, talent, track record and results they deserve – with none of the run around they don't.

For us, it's not about layers of personnel; it's about keeping it personal. And providing the high performance capabilities our clients profit by:

### **Promotion**

Direct mail, brochures, books, binders and beyond! Whether it's a business-to-business or consumer connection you're after, Graphish is renowned for work that works wonders.

### **Advertising**

Sure, we've got the cutting edge talent and creativity to create great advertising. But more importantly, we've got good ears and healthy egos. Which means that when you team with Graphish Studio, you get advertising that works for your product, and not pretty pictures that enhance our portfolio.

### **Branding**

Capture your product's personality with a logo with that brings your brand to life. Whatever your unique selling proposition, count on Graphish Studio for a treatment that communicates it perfectly.

### **Packaging**

It's all about image. To showcase your brand at its best, give us a buzz. We're the packaging source preferred by some of today's most image-conscious companies including Clairol, Scholastic, Johnson & Johnson & Tetley.
